

UPGRADES

Daily activity summary

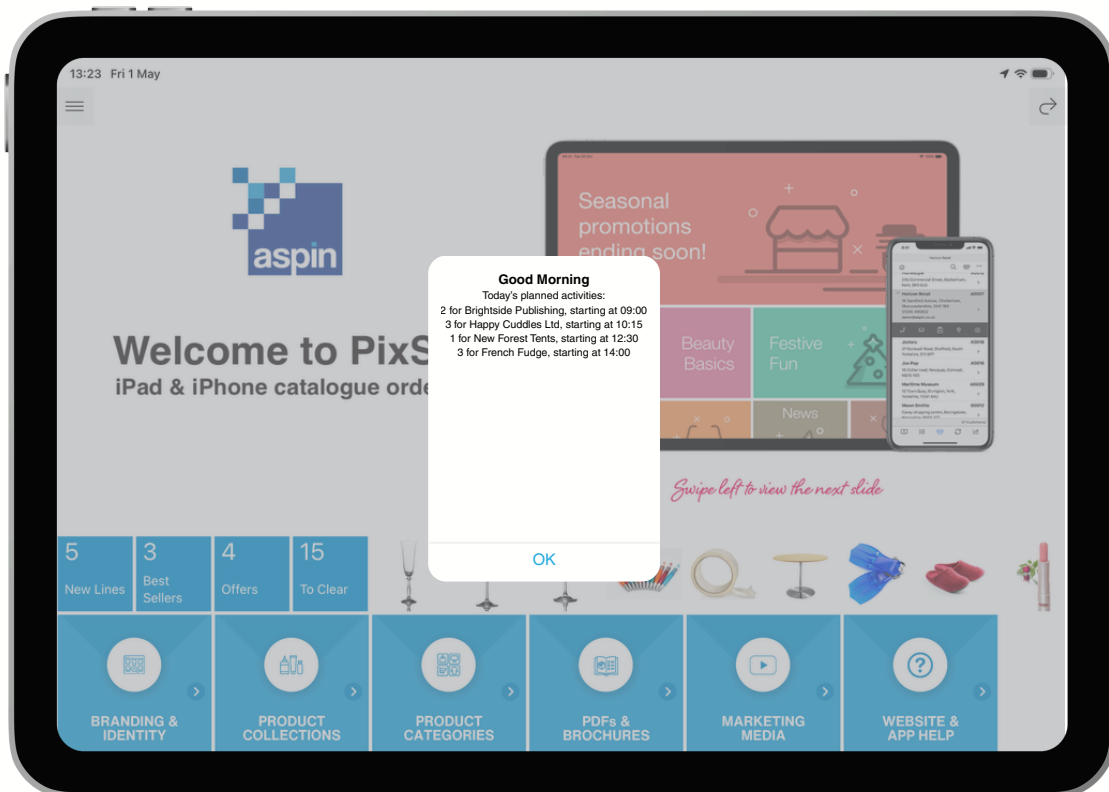

What's changed

- You'll now see a daily summary of planned activities at 7am, or the next time you open PixSell after that
- For users working across multiple principles, everything is shown in one view with no need to switch between accounts
- Can be turned on or off from the Calendar screen

How it helps

This upgrade will give users a quick, reliable view of the day ahead without needing to take extra steps.

Requirements	No data or configuration needed
Access	For customers who have the Activities Module

UPGRADES

Excel exports for reports

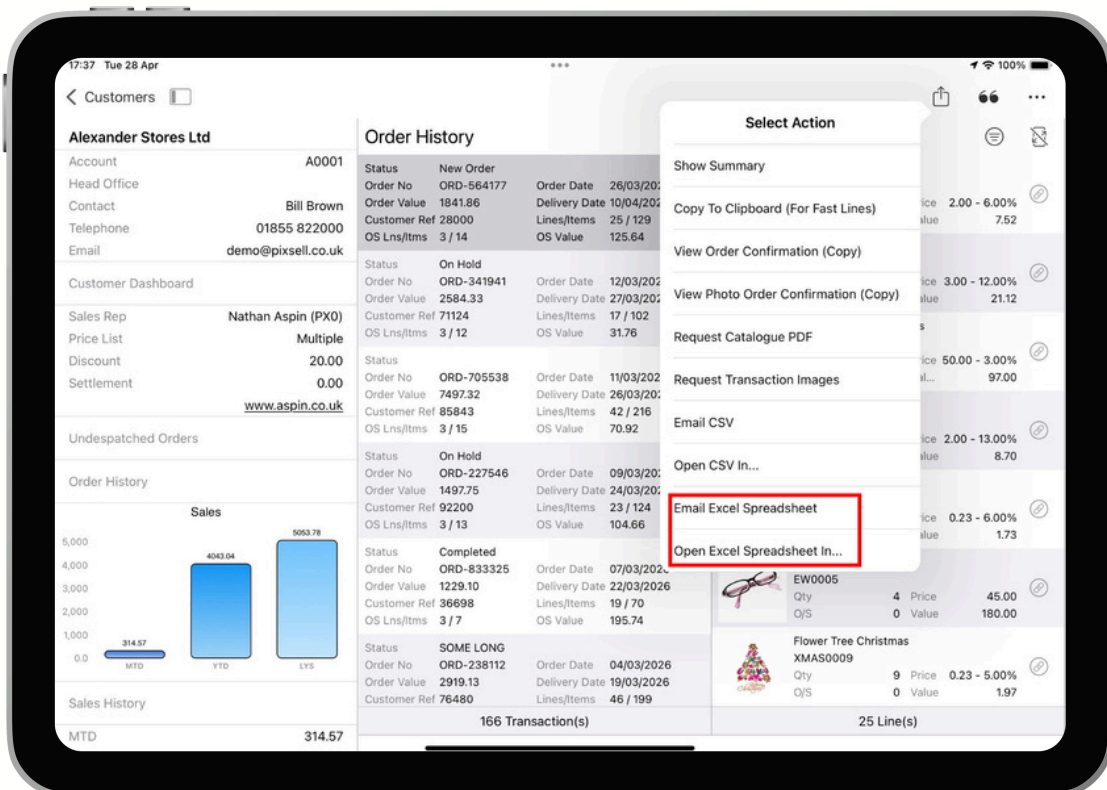

What's changed

- Reports previously only available as csv can now be exported as Excel (.xlsx) files
- Available from the Share menu, alongside existing csv options
- Applies to Dashboard reports, excluding order confirmations
- Excel format allows proper headers and structured data, making reports easier to read, sort and share

How it helps

This upgrade reduces the need to rework files before sending them on.

Requirements	No data or configuration needed
Access	Universally available

OTHER IMPROVEMENTS

Forms improvements

What's changed

- Form titles now display more consistently across different form types
- Photo handling within forms has been improved, making it clearer how to add and manage images

How it helps

These improvements remove small points of friction when capturing and reviewing information

Bug Fixes

- Improved stability in OCR and fixed FastLines issues with product codes that include spaces
- Fixed an issue where "Parsing Reports..." could remain on screen in the Customer action menu
- Improved validation when adding items to orders and credits from transaction history
- Resolved an issue that could cause slow syncs in certain scenarios

UPGRADE GUIDANCE

Before you Upgrade

We recommend testing each release on a single device to confirm it works with your workflows before rolling it out across your team. This helps avoid disruption and ensures a smooth upgrade.

PixSell 3 now requires iOS 17 or above, so check device compatibility before upgrading.

Full upgrade guidance can be found at aspin.co.uk/pixsell-upgrade-guidance.
