

UPGRADES

New Customer Scorecard

What's changed

- Added a new Customer Scorecard, bringing together key account information in a single view
- Accessible via a new 'business card' icon in the customer screen
- View 12 month sales trends, account summaries, recent activity, ordering patterns and recent order history
- Review top ordered products by value or volume across a selectable time period
- Helpful information icons explain each section of the Scorecard
- User feedback will help shape future enhancements

How it helps

Sales reps can prepare for customer visits more effectively by seeing account health, sales trends and opportunities at a glance, without navigating between multiple screens.

Requirements	No data or configuration needed
Access	Universally available

UPGRADES

New Territory Undespached Report

What's changed

- Added a new Territory Undespached Report, available from the main Dashboard, accessed from the Main Menu, below the Out Tray
- Sort and filter outstanding orders by account, delivery date and sales representative
- Export filtered results to CSV for further analysis or sharing

How it helps

Provides a single view of outstanding orders across your territory, making it easier to monitor deliveries, prioritise follow up and share information with colleagues.

Requirements	Configuration required to define field contents
Access	Universally available

UPGRADES

Customer Undespached Report

What's changed

- Added additional header and line fields to the Customer Undespached Report
- Included support for free text notes and an additional configurable information field

How it helps

Gives businesses greater control over delivery date policies while supporting different operational requirements

Requirements	Configuration required
Access	Universally available

UPGRADES

Customer Name Search

What's changed

- Order History and Sales History now support searching by customer name as well as account number
- Matching accounts are displayed as you type, removing the need to remember the exact account number

How it helps

Finding customer order and sales history is quicker and more intuitive, especially for users who don't know account numbers.

Requirements	No data or configuration needed
Access	Universally available

UPGRADES

Image Syncing

What's changed

- Added a dedicated Images Only sync option from the main Sync menu
- Updated the Image and Media Summary screen with clearer guidance on downloading large image libraries
- Renamed the manual sync button to Sync Images Now and made it more prominent

How it helps

Makes the image download process easier to understand, helping users keep their catalogue up to date with fewer support queries.

Requirements	No data or configuration needed
Access	Universally available

BUG FIXES

- General performance and stability improvements
- Report lines are now the correct size when reopening PixSell after using third party apps

UPGRADE GUIDANCE

Before you Upgrade

We recommend testing each release on a single device to confirm it works with your workflows before rolling it out across your team. This helps avoid disruption and ensures a smooth upgrade.

PixSell 3 now requires iOS 17 or above, so check device compatibility before upgrading.

Full upgrade guidance can be found at aspin.co.uk/pixsell-upgrade-guidance.

CONTACTING ASPIN

If you have any queries, or require any further information, please contact us using the following details:

- For United Kingdom general and sales information, email sales@aspin.co.uk or call +44 (0)1794 500 200
- For United Kingdom technical information and support, email our Service Desk at support@aspin.co.uk or call +44 (0)1794 500 205
- For all Australia and New Zealand queries, email info@aspin.com.au or call +61 (0)7 3297 7425
